Aspiring Data Analyst

Artificial Intelligence and Data Science undergraduate student with a strong foundation in Python, machine learning, and data analysis. I'm currently seeking opportunities where I can contribute to innovative tech teams while continuing to grow my skills in AI and data science.

Educational Credentials

B.Tech | Artificial Intelligence and Data Science, Saranathan College of Engineering, Trichy, SEP 2023-Present,
CGPA 8.23/10

Higher Secondary | Computer Science, Campion Angolo Indian Higher Secondary School, Trichy, JUN 2022-APR 2023,
Percentage 79.33

Skills

- **Languages:** Python(Advanced), C, Java(Basic)
- **Soft Skills:** Teamwork, Management Skills, Leadership, Effective Communication, Ability to Learn Quickly
- **Technical Skills:** PDF Processing, Large Language Models (LLMs), NLP, Data Analysis, Data Visualization, RAG, Prompt Engineering, Hugging Face Transformers, Tokenization, API Development.
- **Database:** PostgreSQL, MongoDB, SQLite
- **Tools:** Power BI, Visual Studios, AntiGravity, Git, GitHub, Jupyter Notebook, Google Cloud Platform (GCP)
- **Libraries & Frameworks:** Matplotlib, Seaborn, NumPy, Pandas, Scikit-learn, Tensorflow, Pytorch, Langchain, Ollama, OpenCV, Media Pipe, NLTK, FastAPI
- **Relevant Coursework:** Machine Learning, Deep Learning, Artificial Intelligence, Big Data Analysis, Data Science, Cloud Computing, Data Visualization, Operating Systems, Data Structures & Algorithms, Probability & Statistics, Discrete Mathematics

Internship/Experience

- 1. Techzarinfo | Frontend Development Intern | Duration: 15 Days**
 - Learned and applied React.js fundamentals to develop responsive frontend user interfaces.
 - Built reusable UI components and gained hands-on experience with modern web development practices.
 - Collaborated on basic frontend projects and improved understanding of component-based architecture.
- 2. Code Alpha | Data Science Intern (Virtual) | Duration: 30 Days**
 - Developed a Car Price Prediction model using Python and Machine Learning techniques.
 - Performed data preprocessing, exploratory data analysis (EDA), and feature engineering on automotive datasets.
 - Evaluated model performance and generated predictions to support data-driven decision-making.
- 3. Tata Forage | GenAI-Powered Data Analytics Virtual Experience Program**
 - Completed practical tasks involving Generative AI and Data Analytics concepts through real-world business scenarios.
 - Utilized Excel for data cleaning, analysis, and interpretation to derive actionable insights.
 - Enhanced understanding of AI-driven analytics workflows and business problem-solving approaches.
- 4. Cognifyz Technologies | Data Analyst Intern (Virtual) | Duration: 30 Days**
 - Performed data analysis and reporting tasks using Excel.
 - Worked with datasets to identify trends, patterns, and key business insights.
 - Strengthened analytical and problem-solving skills through practical data-driven projects.

Projects

1. Veda Sense | AI-Powered Natural Product Authentication System

- Developed an IoT-based solution using ESP32, sensors, and Machine Learning to determine whether food products and natural medicines are authentic and 100% natural.
- Integrated sensor data collection with predictive AI models to analyze product characteristics and identify potential adulteration.
- Collaborated in a team of 6 members to design, develop, and test the hardware-software system.

2. Volt IQ | AI-Driven EV Battery Health Management Platform

- Developed an intelligent battery health monitoring system for electric vehicles to assess battery condition and provide AI-based recommendations for improving battery lifespan.
- Designed a fleet management platform capable of monitoring and managing batteries across multiple EV brands from a centralized dashboard.
- Utilized data analytics and AI techniques to support predictive maintenance and enhance operational efficiency.

3. Nayamithra AI | Legal Assistance Platform

- Built an AI-powered legal assistant to provide accessible legal guidance for citizens, marginalized communities, and legal professionals.
- Implemented intelligent query handling to deliver legal information, recommendations, and support for common legal issues.
- Designed to improve access to legal knowledge and reduce barriers to obtaining legal assistance.

Mini Projects

1. Sentimental Analysis

- Developed a Natural Language Processing (NLP) application to classify user sentiments from textual data as positive, negative, or neutral.
- Applied text preprocessing, feature extraction, and machine learning techniques to improve sentiment prediction accuracy.
- Enabled automated analysis of customer feedback and user opinions.

2. Auto Attendance

- Developed an automated attendance management system for online learning environments to track student entry and exit activities.
- Streamlined attendance recording and supported certification validation through accurate participation monitoring.
- Reduced manual effort and improved attendance management efficiency.

3. Churn rate

- Built a Machine Learning model to identify customers likely to discontinue using a service or business.
- Performed data preprocessing, feature engineering, and predictive analytics to analyze customer behavior patterns.
- Assisted organizations in improving customer retention through early churn prediction.

4. AI Resume Analyzer

- Developed an AI-powered resume screening system to evaluate resumes against job requirements and recruitment criteria.
- Implemented resume parsing, skill extraction, keyword matching, and ATS-style scoring mechanisms.
- Enabled recruiters to quickly identify suitable candidates and streamline the hiring process.

Certificate

- C Programming For Beginners - Master the C Language - **Udemy**
- Microsoft Excel - Excel from Beginner to Advanced - **Udemy**
- Java - **INLUSTRO**
- PowerBI-**360DigiTMG**
- Machine Learning-**NPTEL**
- SQL-**Coursera**
- Entrepreneurship and Essential-**NPTEL**

Achievements

- Won the **2nd Runner up** in 24 hour Hackathon conducted by KPR College Coimbatore
- Core member of the department club -Creating websites and leading Hackathons.

Language Proficiency

English-Fluent

Tamil-Native Proficiency
